LEARNING BY DOING

At UWO, students don't just prepare for the future—they step into it, one real-world experience at a time. Experiential learning is a core advantage of a UWO education, giving students the opportunity to apply what they're learning through hands-on work, research, internships, clinicals and community partnerships.

Across every discipline, Titans are building skills and confidence through meaningful, résumé-worthy experiences.

- ▶ Nursing students are preparing for modern healthcare by training in telehealth delivery.
- ▶ Electrical engineering technology students are solving real-world problems in partnership with Switchgear Power Systems.
- ▶ A geology major was selected from more than 30,000 applicants for a prestigious NASA research internship.
- ▶ Radio TV Film students are earning national recognition in competitions—including the Door County Film Festival.
- ▶ A faculty member was part of a paleontology team that uncovered a new species of flying reptile, giving students the chance to learn from a globally significant research discovery firsthand.
- ▶ A team of students and faculty is conducting interdisciplinary research on harmful algal blooms, supported by a \$1.6 million National Science Foundation grant.

At UWO, learning doesn't stop in the classroom. Students are empowered to lead, innovate and contribute—right now, not years from now. These experiences shape not just what students know, but who they become.

The **hands-on** approach of the Radio TV Film (RTF) program helped me develop a diverse skillset. The combination of on-air skills and behind-the-scenes production knowledge made me feel **ahead** and **prepared** from day one. I'm a firm believer it's the reason I am where I am today.

CORY SPARKS

2023 UWO graduate, Play-By-Play
Broadcaster, On-Air Host for ESPN

From the **CHANCELLOR**

You play a key role in helping students make life-shaping decisions. At UW-Oshkosh, we're proud to be a place where students not only unlock their full potential, but thrive with the support, opportunities and vibrant community they need to succeed on campus and beyond.

Titans quickly find their talents, connect with networks and explore opportunities that make college feel totally worth it and instantly rewarding.

UWO has a wide range of student organizations, health and wellness resources, arts and athletics events, and career development experiences that make life and learning here unique.

Most importantly, students build strong, positive connections with dedicated faculty and staff who are truly invested in their growth and success. These teaching and learning partnerships often turn into mentorships and friendships over time, giving UWO alumni a lifetime of priceless support and guidance.

This is what we mean when we say UWO helps students get one step ahead!

Chancellor Manohar Singh

OLYMPIC-CALIBER TRACK UPGRADES

UWO resurfaced the outdoor track at Titan Stadium with an **Olympic-caliber Beynon surface**—similar to the track used for the U.S. Olympic Trials at the world-renowned Hayward Field in Oregon. The upgrade improves training and competition conditions for Titan student-athletes and allows UWO to once again host premier events like the Titan Invitational.

NEW BACHELOR'S DEGREE IN BUSINESS ANALYTICS

Launching in Fall 2025, UWO's **new Business Analytics major** equips students with in-demand data skills like statistical analysis, Python, data visualization and more. The program responds to strong student interest and employer demand, with 200+ data-focused jobs within 100 miles of campus. With job growth projected at 27% in Wisconsin by 2030, UWO's program is designed to give graduates a competitive edge in fields like finance, marketing, supply chain and more.

DR. BOYLAND UNIVERSITY HALL

Formerly the Multicultural Education Center, the renovated Dr. Boyland University Hall honors the legacy of alumnus and philanthropist Dr. Dorian Boyland. The **modernized space supports student belonging and cultural engagement** through events, programs and student organizations.

TITAN PREVIEW

Titan Preview events give a taste of everything UWO has to offer. You'll hear from professors and current students, take a campus tour and attend awesome information sessions about academic programs and life on campus.

CAMPUS VISIT

Campus visits, held Monday through Friday and on select Saturdays, include a group presentation and tour.

VIRTUAL OPTIONS

Explore UWO on your own with our virtual tour. Each "stop" on the tour provides a glimpse of why so many students call UWO home.

TITAN PREVIEW DATES

2025

FRIDAY, SEPT. 26

Titan Preview (all majors)

FRIDAY, OCT. 17
